1. TECCO:PAPER PRODUCTION

The **TECCO:PRODUCTION** product range contains tailor made printing substrates for all kinds of professional applications. They assure the maximum of flexibility due to the variety of products, sizes and applications. The printing quality meets the highest achievable standards.
The **TECCO:PRODUCTION** portfolio offers papers and printing substrates for all types of indoor and outdoor applications in the inkjet market.

1.1. Matt printing media
1.2. Glossy and semi matt printing media
1.3. Transparent printing media
1.4. Self-adhesive printing media
1.5. Textile and textile-like printing media
1.6. Complementary products

2. TECCO:PAPER PHOTO

TECCO:PHOTO papers are produced for use with all the well known inkjet printers and inks, various sizes are available from traditional photo size (10 x 15 cm) to 64 inch plotter rolls for wide format applications.

Professional photo prints can be achieved by using the TECCO:PHOTO RGB ICC profiles for Adobe™ Photoshop® which are available for most common inkjet printers for Windows® and Macintosh® systems. For more information please visit: www.tecco-photo.com/EN/downloads.html .

Professional Portrait

The TECCO:PHOTO Professional Portrait papers have been especially developed for the professional portrait photographer with the highest quality requirements. Besides classic matt, satin or glossy Ink-Jet papers, you will find in our Professional Portrait range special coated papers which are very close in appearance and feel to the traditional analogue portrait papers.

Photographers Selection

The TECCO:PHOTO Photographers Selection contains a unique selection of special media for prints in an extraordinary quality level. From a classical Baryt-Paper over duplex-coated album papers to ultra-white high glossy media, you will find exactly the products you need to provide your prints with that extra touch.

FineArt

The TECCO:PHOTO FineArt range contains a large variety of high quality papers for creative photographers and ambitious artists. From canvas to paper and cotton based artist papers, you will find in the TECCO:PHOTO FineArt portfolio a number of 100 % acid free, PH neutral products. Some of which are suitable for archival FineArt, with an average paper life time of more than 100 years.

3. TECCO:PAPER LASER

TECCO:LASER products enable you to achieve the maximum quality output from your laser printer.
The huge variety of different types of laser papers fullfill the requirements of a demanding market.
TECCO:LASER media distinguish themselves by a perfect toner adhesion, unique color fidelity and outstanding sharpness.

3.1. Matt printing media
3.2. Glossy and semi matt printing media
3.3. Transparent printing media
3.4. Self-adhesive printing media
3.5. Transfer papers
3.6. Printing media for special applications
